SUPERINTENDENT'S REPORT

To the School Board and Citizens of Bartlett:

There were three changes in our teaching staff this year. Miss Jean Smith of the high school resigned and Miss

Catherine McPherson, a graduate of the University of Vermont, was engaged to fill the vacancy. Miss Josephine Leso, who had served us well for a long time as principal of the grammar school, resigned on account of ill health and Raymond E. Morton, a graduate of Gorham Normal school and of the University of Maine, was selected to take her place. Miss Marion Hersey also resigned during the summer and Miss Alice Chandler was engaged to teach in her place. Miss Virginia Allgrove, a graduate of Fitchburg Normal school, is the new teacher at Intervale.

It is gratifying that a number of our teachers are interested in sports and are capable of coaching and directing athletic activities among both boys and girls.

It is necessary to point out that we are near a point of congestion in the schools at Glen and Intervale. We are already transporting about twenty elementary pupils from these schools to the Bartlett grammar school. This number cannot be increased because the upper grades in the grammar school are already filled to capacity. If the number of elementary pupils at Glen and Intervale continues to increase as in the last three years, we shall have to find more school accommodations.

The budget has been figured as accurately as possible for a fiscal year which ends one year from June 30 next, and is nearly the same as last year. An increase is made in the estimate for fuel, and a sufficient sum set aside for high school books and supplies to add to the laboratory equipment, and provide much-needed additions to the text books in English and the library facilities. The amount asked for under article six is \$14,783.96. As always, high school transportation, insurance, and any special repairs or additions to equipment are considered under appropriate articles.

There was a considerable surplus from the insurance settlement last year, and at the last March meeting the school board was instructed to use it, first, for renovating the high school and installing a supplementary heating unit

in the basement room used for recitations. If sufficient money were left after this was done, the school board were authorized in their discretion to install shower baths in the grammar school.

A very complete job has been done on the interior of the high school and a heating unit installed which is very satisfactory. There is probably enough money still left to install shower baths with no further appropriation. The school board has secured approval from the state board of education for a plan which is now being worked out, and on which estimates have been asked.

In behalf of the high school we would express officially our thanks to Mr. and Mrs. S. C. Simpson for the gift of cyclopaedia and other reference books last fall.

JOHN H. FULLER,

Superintendent.

North Conway, February 22, 1937.
